AWS SERVICES
Make sure your cloud always delivers on its full potential

Migrating to the public cloud can transform your business – but only if you get it right. With Bytes at your side, you can gain the full benefits and avoid the common pitfalls.

Every decision becomes a smarter one

AWS Cloud Services from Bytes means you can make the most of the public cloud. You can move applications and workloads confidently and with your eyes open — because you'll see exactly what you own, what it costs and how to get the greatest value for your business, today and tomorrow.

Buying cloud services is the easy bit, managing them is an art

Many IT decision-makers and finance executives discover their move to the cloud is undermined by unexpected costs and risk. Whether you are an existing AWS user or just moving into Cloud, Bytes AWS Optimisation Managed Services will ensure your infrastructure is as cost and performance efficient as possible.

We can help your business achieve its goals

AWS Workloads Migration Services

› Migrate from on any cloud or on-premise Data Centre to AWS

› Support in applying for and managing funding

AWS After Care Support Services

› TaaS Support (Technical Architect as a Service) hours

› Ongoing support and assistance with architectural requirements

AWS SPOT Managed Services

› Save up to 80% on workloads compared to on-demand costs

› Maintain 99.99% uptime SLA's with full 24x7 support

AWS Optimisation Services

› Proactive service that saves up to 30% on cloud spend

› Cost neutral as all savings outweigh any ongoing costs

Future Focused Services

› Take out the guess work from delivering various projects

› R&D, Service Design, application deployment CI/CD pipeline design

› Workshops, Application Factory (understanding what will work or not in AWS), Proof of Concepts, Build, Documentation and Training/aftercare services

› Access to unique funding programmes from AWS

We're independent cloud specialists: Our loyalty is to you

Trusting your applications and workloads to a partner is a bold move. But Bytes has leading expertise and a strong track record of designing, developing and managing cloud-based services for customers.

We believe any organisation can unleash the power of public cloud services… from small start-ups to large multinationals. We turn ambitious ideas into rewarding realities.

You get more from Bytes
