

Microsoft Azure Funding

As one of Microsoft leading partners, Bytes can apply for the below funding options for our customers who have projects transitioning into Azure:

- ✓ **Funded Assessments**
- ✓ **Plan and Assess**
- ✓ **Azure Migrate and Modernise (AMM)**
- ✓ **Azure Credit Offer**

Bytes can help!

If you have a project where you are looking to migrate or modernize to Azure Cloud, Bytes can get you financial support to aid you with this process regardless of where you are in your journey. All funding amounts are based upon the estimated Azure Consumed Revenue (ACR).

Funded Assessments

ensure you have full visibility of your current infrastructure and provides the insight required to begin planning your transition into the cloud.

Plan and Assess funding

supports you with how to adopt the cloud and ensures you understand best practice as well as helping of creating a PoC or Foundational Landing Zone.

Azure Migration & Modernisation (AMM) funding

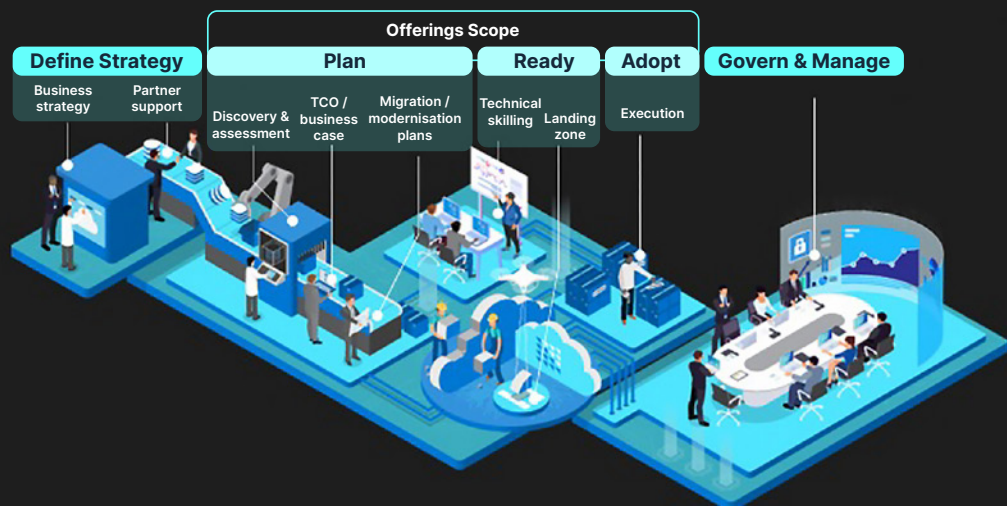

helps towards the costs of migrating your workloads and will include in-depth scoping of your infrastructure and create a migration plan as well as delivery of the migration.

CSP Azure Credit Offer (ACO) funding

can help towards the cost of running a Proof of Concept as well as supporting your initial infrastructure costs after migration into Azure. Bytes can request Azure Credits to be applied to your CSP subscription to help keep migration costs down.

Get help at every stage of your cloud migration journey

Eligibility criteria – subject to Microsoft approval.

Why Bytes?

When it comes to Azure, you need an experienced partner. Below are the key areas where Bytes can help you achieve your business goals.
