

Bytes Endpoint Market Review

70% of all breaches originate at the Endpoint according to the IDC. It has always been important for organisations to understand how to secure endpoints and as attackers become bolder this has never been more important. Working out what you need from an endpoint solution and where you are from a Security Strategy point of view can be a daunting task but is needed before you can ensure security for all of your endpoints.

Our Methodology

Our security specialists work with you to identify your key endpoint challenges and requirements, then walk you through the various options that you have to strengthen your security posture. The result - a clear map of your journey to simple, secure endpoints.

What to Expect

- ✓ 1:1 Interactive
- ✓ Insight into Market Leading Technology
- ✓ Recommendations on Current & Future Investments
- ✓ Report detailing Recommendations & Next Steps
