# INFRASTRUCTURE MODERNISATION
## Efficiency, optimisation and cost reduction

### HYBRID CLOUD
> How will your workloads perform in the cloud?
> How can you burst in and out of your DC to the public cloud?
> How much will it costs to run workloads in the cloud?
> Seamlessly connect public and private cloud resources

### OPERATIONS
> Managing alerts & troubleshooting
> Automating manual tasks, workflows & policies
> Right-sizing your environment
> Minimising Windows Server/SQL licensing costs

### HARDWARE
> Hyper-converged
> Software-defined storage
> Is migrating to cloud storage cheaper?
> IaaS

### BACK-UP
> Cloud-agnostic managed service
> Incremental back-ups
> Deploy & manage multiple storage repositories

### DISASTER RECOVERY
> One click failover testing
> Drastically reduce capital cost
> No impact DR testing
> Flexible topology configuration

**ON-PREMISES | HYBRID CLOUD | CLOUD FIRST**

### PATCH MANAGEMENT
> How do you ensure that O/S and third party apps are up to date within 14 days of new releases?
> Automate patching

### NETWORK SECURITY
> Visibility of entire network
> Protecting the moving boundary
> Targeted email threats
> Cutting MPLS costs

### CYBER BREACH MANAGEMENT
> Establishing an incident response plan
> Testing security posture
> Maintain compliance

### IDENTITY & ACCESS
> Limit user privileges and monitor user activity
> On/off boarding users
> Secure access to apps/devices

### DATA SECURITY
> Preventing unauthorised access to private data
> Controlling data loss across multiple vectors
> Auditing/ reporting for compliance
> Data loss through SaaS apps

### BOOK YOUR WORKSHOP TODAY

We're helping customers modernise their IT infrastructure, whether that be on-premises, a hybrid model or into the cloud. Focusing on your goals, our workshops can cover the entire datacentre or focus on specific areas.

> **Business & IT Strategy**
> **Technology Best Practice**
> **Cloud Consumption & Workload Analysis**
> **Migration Services for Azure & AWS**
> **Licensing & Impact on Agreements**
> **Assessments across Virtualisation, Security and Storage**

Ideal for CIO's, IT Directors, Infrastructure Managers, Cloud and Digital Transformation Teams

Bytes offer advisory, planning and design services.
